

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

AURKA RABBIT PAB

货号: S220322

产品全名: AURKA 兔多抗

基因符号 AIK; ARK1; AURA; BTAK; STK6; STK7; STK15; PPPIR47 UNIPROT ID: O14965 (Gene Accession - NP_003591)

背景: The protein encoded by this gene is a cell cycle-regulated kinase that appears to be involved in microtubule formation and/or stabilization at the spindle pole during chromosome segregation. The encoded protein is found at the centrosome in interphase cells and at the spindle poles in mitosis. This gene may play a role in tumor development and progression. A processed pseudogene of this gene has been found on chromosome 1, and an unprocessed pseudogene has been found on chromosome 10. Multiple transcript variants encoding the same protein have been found for this gene.

抗原: Synthetic peptide of human AURKA

经过测试的应用: ELISA, IHC

推荐稀释比: IHC: 25-100; ELISA: 5000-10000

种属反应性: Rabbit 克隆性: Rabbit Polyclonal

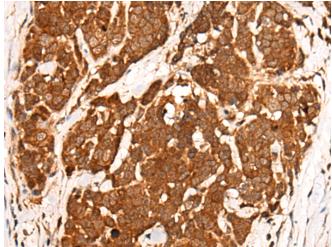

亚型: Immunogen-specific rabbit IgG 纯化: Antigen affinity purification

种属反应性: Human

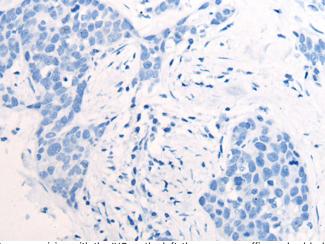

成分: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

研究领域: Signal Transduction, Cancer

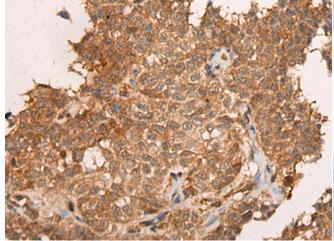

储存和运输: Store at -20°C. Avoid repeated freezing and thawing

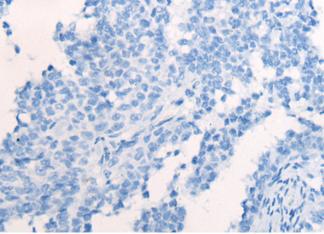

Immunohistochemistry analysis of paraffin embedded Human thyroid cancer tissue using 220322(AURKA Antibody) at a dilution of 1/30(Cytoplasm and Nucleus).

In comparision with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with the synthetic peptide and then with 220322(Anti-AURKA Antibody) at dilution 1/30.

The image on the left is immunohistochemistry of paraffinembedded Human ovarian cancer tissue using 220322(Anti-AURKA Antibody) at a dilution of 1/30.

In comparision with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with synthetic peptide and then with D261346(Anti-AURKA Antibody) at dilution 1/30.
