Immunohistochemistry analysis of paraffin embedded Human ovarian cancer tissue using 212272(CRCP Antibody) at a dilution of 1/65(Cytoplasm and Nucleus).

In comparision with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with the fusion protein and then with 212272(Anti-CRCP Antibody) at dilution 1/65.

The image on the left is immunohistochemistry of paraffinembedded Human cervical cancer tissue using 212272(Anti-CRCP Antibody) at a dilution of 1/65.

In comparision with the IHC on the left, the same paraffin-embedded Human cervical cancer tissue is first treated with fusion protein and then with D124678(Anti-CRCP Antibody) at dilution 1/65.
