

## FASTK RABBIT PAB

货号: S216509

产品全名: FASTK 兔多抗

基因符号: FAST

**UNIPROT ID:** Q14296 (Gene Accession - BC000377)

**背景:** The protein encoded by this gene is a member of the serine/threonine protein kinase family. This kinase was shown to be activated rapidly during Fas-mediated apoptosis in Jurkat cells. In response to Fas receptor ligation, it phosphorylates TIA1, an apoptosis-promoting nuclear RNA-binding protein. The encoded protein is a strong inducer of lymphocyte apoptosis. Two transcript variants encoding different isoforms have been found for this gene. Other variants exist, but their full-length natures have not yet been determined.
