Immunohistochemistry analysis of paraffin embedded Human esophagus cancer tissue using 222079(GHDC Antibody) at a dilution of 1/90(Nucleus envelope).

In comparison with the IHC on the left, the same paraffin-embedded Human esophagus cancer tissue is first treated with the synthetic peptide and then with 222079(Anti-GHDC Antibody) at dilution 1/90.

The image on the left is immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using 222079(Anti-GHDC Antibody) at a dilution of 1/90.

In comparison with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with synthetic peptide and then with D263988(Anti-GHDC Antibody) at dilution 1/90.
