

GPT RABBIT PAB

货号: S219632

产品全名: GPT 兔多抗

基因符号: AAT1; ALTI; GPT1

UNIPROT ID: P24298 (Gene Accession - NP_005300)

背景: This gene encodes cytosolic alanine aminotransaminase 1 (ALTI); also known as glutamate-pyruvate transaminase 1. This enzyme catalyzes the reversible transamination between alanine and 2-oxoglutarate to generate pyruvate and glutamate and, therefore, plays a key role in the intermediary metabolism of glucose and amino acids. Serum activity levels of this enzyme are routinely used as a biomarker of liver injury caused by drug toxicity, infection, alcohol, and steatosis. A related gene on chromosome 16 encodes a putative mitochondrial alanine aminotransaminase.
