Immunohistochemistry analysis of paraffin embedded Human thyroid cancer tissue using 217585(LYN Antibody) at a dilution of 1/20(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with the fusion protein and then with 217585(Anti-LYN Antibody) at dilution 1/20.

The image on the left is immunohistochemistry of paraffin-embedded Human liver cancer tissue using 217585(Anti-LYN Antibody) at a dilution of 1/20.

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with fusion protein and then with D222640(Anti-LYN Antibody) at dilution 1/20.
