

MRAS RABBIT MAB

货号: N263433

产品全名: MRAS 兔单克隆抗体

基因符号 NS11; M-RAS; RRAS3; R-RAS3

UNIPROT ID: O14807

背景: This gene encodes a member of the Ras family of small GTPases. These membrane-associated proteins function as signal transducers in multiple processes including cell growth and differentiation, and dysregulation of Ras signaling has been associated with many types of cancer. The encoded protein may play a role in the tumor necrosis factor- α and MAP kinase signaling pathways. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene.
