

Product Description

NPPB RABBIT PAB

货号: S217134

产品全名: NPPB 兔多抗

基因符号 BNP

UNIPROT ID: P16860 (Gene Accession - BC025785)

背景: This gene is a member of the natriuretic peptide family and encodes a secreted protein which functions as a cardiac hormone. The protein undergoes two cleavage events, one within the cell and a second after secretion into the blood. The protein's biological actions include natriuresis, diuresis, vasorelaxation, inhibition of renin and aldosterone secretion, and a key role in cardiovascular homeostasis. A high concentration of this protein in the bloodstream is indicative of heart failure. Mutations in this gene have been associated with postmenopausal osteoporosis.

抗原: Fusion protein of human NPPB

经过测试的应用: ELISA, IHC

推荐稀释比: IHC: 50–200; ELISA: 2000–5000

种属反应性: Rabbit

克隆性: Rabbit Polyclonal

亚型: Immunogen-specific rabbit IgG

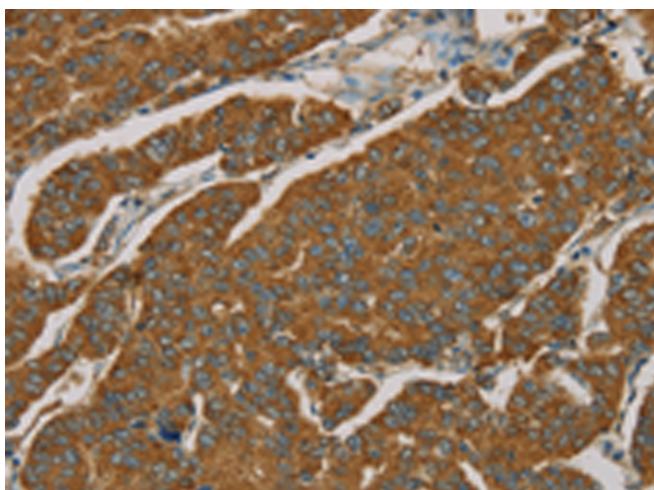

纯化: Antigen affinity purification

种属反应性: Human

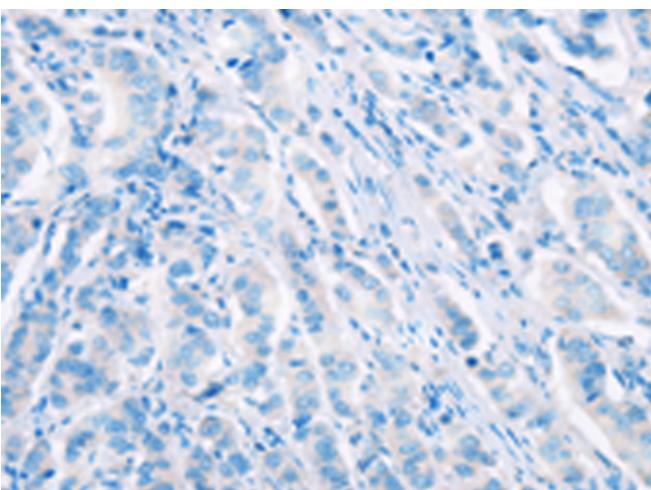

成分: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

研究领域: Signal Transduction, Cardiovascular

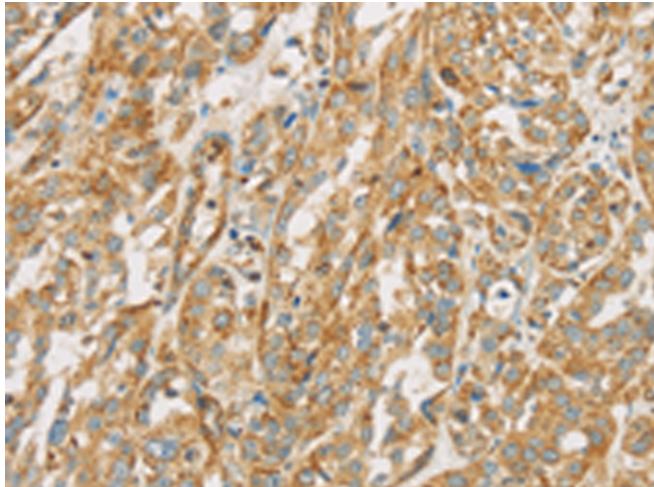

储存和运输: Store at -20°C. Avoid repeated freezing and thawing

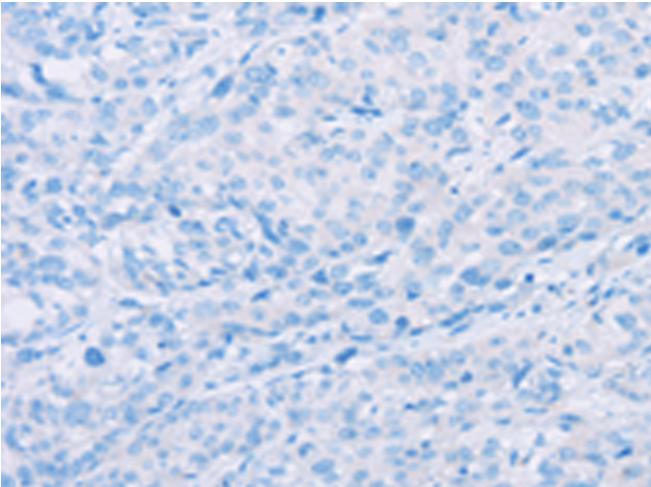

Immunohistochemistry analysis of paraffin embedded Human breast cancer tissue using 217134(NPPB Antibody) at a dilution of 1/30(cytoplasm).

In comparision with the IHC on the left, the same paraffin-embedded Human breast cancer tissue is first treated with the fusion protein and then with 217134(Anti-NPPB Antibody) at dilution 1/30.

The image on the left is immunohistochemistry of paraffin-embedded Human esophagus cancer tissue using 217134(Anti-NPPB Antibody) at a dilution of 1/30.

In comparision with the IHC on the left, the same paraffin-embedded Human esophagus cancer tissue is first treated with fusion protein and then with D221858(Anti-NPPB Antibody) at dilution 1/30.

Pioneering GTPase and Oncogene Product Development since 2010
