

PARK7/DJ1 RABBIT PAB

货号: N225700

产品全名: PARK7/DJ1 兔多抗

基因符号 PARK7; Protein DJ-1; Oncogene DJ1; Parkinson disease protein 7

UNIPROT ID: Q99497

背景: Plays a role in regulating expression or stability of the mitochondrial uncoupling proteins SLC25A14 and SLC25A27 in dopaminergic neurons of the substantia nigra pars compacta and attenuates the oxidative stress induced by calcium entry into the neurons via L-type channels during pacemaking. It cooperates with Ras to increase cell transformation, it positively regulates transcription of the androgen receptor, and it may function as an indicator of oxidative stress.
