

PHOSPHO-IGF1 RECEPTOR (TYR1165/TYR1166) RABBIT PAB

货号: N225089

产品全名: Phospho-IGF1 Receptor (Tyr1165/Tyr1166) 兔多抗

基因符号 IGF1R; Insulin-like growth factor 1 receptor; Insulin-like growth factor I receptor; IGF-I receptor; CD antigen CD221

UNIPROT ID: P08069

背景: This receptor binds insulin-like growth factor with a high affinity. It has tyrosine kinase activity. The insulin-like growth factor I receptor plays a critical role in transformation events. Cleavage of the precursor generates alpha and beta subunits. It is highly overexpressed in most malignant tissues where it functions as an anti-apoptotic agent by enhancing cell survival. Alternatively spliced transcript variants encoding distinct isoforms have been found for this gene. [provided by RefSeq, May 2014]
