

PHOSPHO-SYK (TYR323) RABBIT PAB

货号: N226074

产品全名: Phospho-Syk (Tyr323) 兔多抗

基因符号 SYK; Tyrosine-protein kinase SYK; Spleen tyrosine kinase; p72-Syk

UNIPROT ID: P43405

背景: This gene encodes a member of the family of non-receptor type Tyr protein kinases. This protein is widely expressed in hematopoietic cells and is involved in coupling activated immunoreceptors to downstream signaling events that mediate diverse cellular responses, including proliferation, differentiation, and phagocytosis. It is thought to be a modulator of epithelial cell growth and a potential tumour suppressor in human breast carcinomas. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
