

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

PLCE1 RABBIT PAB

货号: S222400 产品全名: PLCEI 免多抗 基因符号 PLCE; PPLC; NPHS3

UNIPROT ID: Q9P212 (Gene Accession - NP_057425)

背景: This gene encodes a phospholipase enzyme that catalyzes the hydrolysis of phosphatidylinositol-4,5-bisphosphate to generate two second messengers: inositol 1,4,5-triphosphate (IP3) and diacylglycerol (DAG). These second messengers subsequently regulate various processes affecting cell growth, differentiation, and gene expression. This enzyme is regulated by small monomeric GTPases of the Ras and Rho families and by heterotrimeric G proteins. In addition to its phospholipase C catalytic activity, this enzyme has an N-terminal domain with guanine nucleotide exchange (GEF) activity. Mutations in this gene cause early-onset nephrotic syndrome; characterized by proteinuria, edema, and diffuse mesangial sclerosis or focal and segmental glomerulosclerosis. Alternative splicing results in multiple transcript variants encoding distinct isoforms.

抗原: Synthetic peptide of human PLCE1

经过测试的应用: ELISA, IHC

推荐稀释比:IHC: 50-200; ELISA: 5000-10000

种属反应性: Rabbit

克隆性: Rabbit Polyclonal

亚型: Immunogen-specific rabbit IgG

纯化: Antigen affinity purification

种属反应性: Human

成分: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

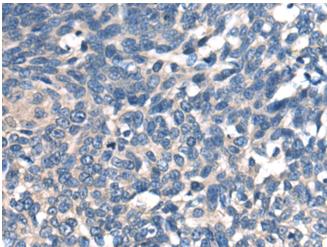

研究领域: Signal Transduction, Metabolism

储存和运输: Store at -20°C. Avoid repeated freezing and thawing

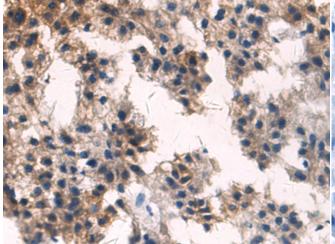

Product Description

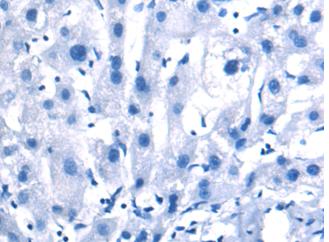

Pioneering GTPase and Oncogene Product Development since 2010

Immunohistochemistry analysis of paraffin embedded Human cervical cancer tissue using 222400(PLCE1 Antibody) at a dilution of 1/50(Cytoplasm).

The image on the left is immunohistochemistry of paraffinembedded Human liver cancer tissue using 222400(Anti-PLCE1 Antibody) at a dilution of 1/50. In comparision with the IHC on the left, the same paraffin-embedded Human cervical cancer tissue is first treated with the synthetic peptide and then with 222400(Anti-PLCEI Antibody) at dilution 1/50.

In comparision with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with synthetic peptide and then with D264550(Anti-PLCEI Antibody) at dilution 1/50.
