

## RAIDD RABBIT MAB

货号: N262809

产品全名: RAIDD 兔单克隆抗体

基因符号 CRADD; MGC9163; RAIDD; Death adaptor molecule RAIDD;  
Death domain containing protein CRADD

**UNIPROT ID:** P78560

**背景:** The receptor interacting protein RIP is a death domain-containing serine/threonine kinase which associates with FAS or the TNF-R1 binding protein TRADD. RAIDD (RIP-associated ICH-1/Ced-3 homologous protein with a death domain) has been identified as a RIP binding protein that also associates with members of the caspase family, providing a link between activation of the TNF-Rs and the triggering of the cysteine protease cascade. The amino-terminal domain of RAIDD shares significant homology with the prodomain of ICH-1 and mediates the binding of RAIDD to this cysteine protease.
