Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 218051(RNF115 Antibody) at a dilution of 1/45(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the fusion protein and then with 218051(Anti-RNF115 Antibody) at dilution 1/45.

The image on the left is immunohistochemistry of paraffin-embedded Human prostate cancer tissue using 218051(Anti-RNF115 Antibody) at a dilution of 1/45.

In comparison with the IHC on the left, the same paraffin-embedded Human prostate cancer tissue is first treated with fusion protein and then with D223615(Anti-RNF115 Antibody) at dilution 1/45.
