Immunohistochemistry analysis of paraffin embedded Human breast cancer tissue using 220903(SEZ6L Antibody) at a dilution of 1/50(Cytoplasm).

In comparision with the IHC on the left, the same paraffin-embedded Human breast cancer tissue is first treated with the synthetic peptide and then with 220903(Anti-SEZ6L Antibody) at dilution 1/50.

The image on the left is immunohistochemistry of paraffin-embedded Human cervical cancer tissue using 220903(Anti-SEZ6L Antibody) at a dilution of 1/50.

In comparision with the IHC on the left, the same paraffin-embedded Human cervical cancer tissue is first treated with synthetic peptide and then with D262196(Anti-SEZ6L Antibody) at dilution 1/50.
