

SGSH RABBIT PAB

货号: S222453

产品全名: SGSH 兔多抗

基因符号: HSS; SFMD; MPS3A

UNIPROT ID: P51688 (Gene Accession - NP_000190)

背景: This gene encodes the enzyme sulfamidase; one of several enzymes involved in the lysosomal degradation of heparan sulfate. Mutations in this gene are associated with the lysosomal storage disease mucopolysaccharidosis IIIA, also known as Sanfilippo syndrome A, which results from impaired degradation of heparan sulfate. Transcripts of varying sizes have been reported but their biological validity has not been determined.

抗原: Synthetic peptide of human SGSH

经过测试的应用: ELISA, WB, IHC

推荐稀释比: IHC: 50-200;WB: 1000-5000;ELISA: 5000-10000

种属反应性: Rabbit

克隆性: Rabbit Polyclonal

亚型: Immunogen-specific rabbit IgG

纯化: Antigen affinity purification

种属反应性: Human, Mouse

成分: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

研究领域: Tags & Cell Markers, Neuroscience, Signal Transduction

储存和运输: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 222453(SGSH Antibody) at a dilution of 1/50(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the synthetic peptide and then with 222453(Anti-SGSH Antibody) at dilution 1/50.

The image on the left is immunohistochemistry of paraffin-embedded Human breast cancer tissue using 222453(Anti-SGSH Antibody) at a dilution of 1/50.

In comparison with the IHC on the left, the same paraffin-embedded Human breast cancer tissue is first treated with synthetic peptide and then with D264632(Anti-SGSH Antibody) at dilution 1/50.

kDa

Gel: 8%SDS-PAGE, Lysate: 40 µg;
Lane: Mouse liver tissue lysate;
Primary antibody: 222453(SGSH Antibody) at dilution 1/1000;
Secondary antibody: HRP-conjugated Goat anti rabbit IgG at 1/5000 dilution;
Exposure time: 7 seconds

Product Description

Pioneering GTPase and Oncogene Product Development since 2010
