

## TBPL1 RABBIT PAB

货号: S218997

产品全名: TBPL1 兔多抗

基因符号: TLF; TLP; STUD; TRF2; MGC:8389; MGC:9620

**UNIPROT ID:** P62380 (Gene Accession - BC000381)

**背景:** This gene encodes a member of the TATA box-binding protein family. TATA box-binding proteins play a critical role in transcription by RNA polymerase II as components of the transcription factor IID (TFIID) complex. The encoded protein does not bind to the TATA box and initiates transcription from TATA-less promoters. This gene plays a critical role in spermatogenesis, and single nucleotide polymorphisms in this gene may be associated with male infertility. Alternatively spliced transcript variants have been observed for this gene, and a pseudogene of this gene is located on the long arm of chromosome 3.

**抗原:** Fusion protein of human TBPL1

**经过测试的应用:** ELISA, IHC

**推荐稀释比:** IHC: 40-200; ELISA: 5000-10000

**种属反应性:** Rabbit

**克隆性:** Rabbit Polyclonal

**亚型:** Immunogen-specific rabbit IgG

**纯化:** Antigen affinity purification

**种属反应性:** Human, Mouse

**成分:** PBS (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

**研究领域:** Epigenetics and Nuclear Signaling

**储存和运输:** Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human esophagus cancer tissue using 218997 (TBPL1 Antibody) at a dilution of 1/50 (Nucleus).

In comparison with the IHC on the left, the same paraffin-embedded Human esophagus cancer tissue is first treated with the fusion protein and then with 218997 (Anti-TBPL1 Antibody) at dilution 1/50.

The image on the left is immunohistochemistry of paraffin-embedded Human lung cancer tissue using 218997 (Anti-TBPL1 Antibody) at a dilution of 1/50.

In comparison with the IHC on the left, the same paraffin-embedded Human lung cancer tissue is first treated with fusion protein and then with D225624 (Anti-TBPL1 Antibody) at dilution 1/50.

# Product Description

Pioneering GTPase and Oncogene Product Development since 2010
