

TRIM25 RABBIT PAB

货号: S221021

产品全名: TRIM25 兔多抗

基因符号: EFP; Z147; RNF147; ZNF147

UNIPROT ID: Q14258 (Gene Accession - NP_005073)

背景: The protein encoded by this gene is a member of the tripartite motif (TRIM) family. The TRIM motif includes three zinc-binding domains, a RING, a B-box type 1 and a B-box type 2, and a coiled-coil region. The protein localizes to the cytoplasm. The presence of potential DNA-binding and dimerization-transactivation domains suggests that this protein may act as a transcription factor, similar to several other members of the TRIM family. Expression of the gene is upregulated in response to estrogen, and it is thought to mediate estrogen actions in breast cancer as a primary response gene.

抗原: Synthetic peptide of human TRIM25

经过测试的应用: ELISA, IHC

推荐稀释比: IHC: Oct-50; ELISA: 1000-2000

种属反应性: Rabbit

克隆性: Rabbit Polyclonal

亚型: Immunogen-specific rabbit IgG

纯化: Antigen affinity purification

种属反应性: Human

成分: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

研究领域: Signal Transduction, Epigenetics and Nuclear Signaling, Cell Biology

储存和运输: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 221021(TRIM25 Antibody) at a dilution of 1/25(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the synthetic peptide and then with 221021(Anti-TRIM25 Antibody) at dilution 1/25.

The image on the left is immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using 221021(Anti-TRIM25 Antibody) at a dilution of 1/25.

In comparison with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with synthetic peptide and then with D262367(Anti-TRIM25 Antibody) at dilution 1/25.

Product Description

Pioneering GTPase and Oncogene Product Development since 2010
