

HUMAN CD114 PROTEIN, HIS TAG

货号: 11203

产品全名: 人 CD114 蛋白

规格: 10/50/100 µg

基因符号 CSF3R;D114;CSFR

目标蛋白: CD114

UNIPROT ID: Q99062

描述: Recombinant human CD114 protein with C-terminal 6xHis tag

背景: The protein encoded by this gene is the receptor for colony stimulating factor 3, a cytokine that controls the production, differentiation, and function of granulocytes. The encoded protein, which is a member of the family of cytokine receptors, may also function in some cell surface adhesion or recognition processes. Alternatively spliced transcript variants have been described. Mutations in this gene are a cause of Kostmann syndrome, also known as severe congenital neutropenia.

物种/宿主: HEK293

分子量: The protein has a predicted molecular mass of 67.5 kDa after removal of the signal peptide. The apparent molecular mass of CD114-His is approximately 100-110 kDa due to glycosylation.

分子特征: CD114(Glu25-Pro622) 6xHis tag

纯化: The purity of the protein is greater than 95% as determined by SDS-PAGE and Coomassie blue staining.

Formulation & Reconstitution: Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% – 8% trehalose is added as protectants before lyophilization.

储存和运输: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
