

HUMAN IL-28A (C-6HIS) PROTEIN

货号: 12094

产品全名: 人 IL-28A (C-6His) 蛋白

规格: 10/50/100 µg

基因符号 Interferon lambda-2;IFN-lambda-2;Cytokine
Zcyto20;Interleukin-28A;IL-28A;IFNL2;IL28A;ZCYTO20

目标蛋白: IL-28A

UNIPROT ID: Q8IZJ0

描述: Recombinant Human Interferon Lambda-2 is produced by our Mammalian expression system and the target gene encoding Val26-Val200 is expressed with a 6His tag at the C-terminus.

背景: IL-28A (Interferon- λ 2? IFN- λ 2), IL-28B/IFN- λ 3, and IL-29/IFN- λ 1 are type III interferons which are distantly related to IL-10 family and type I IFN family cytokines. Mature human IL-28A is an approximately 22-25 kDa protein that shares 66% amino acid (aa) sequence identity with mouse and rat IL-28A and shows cross-species activity. It shares 96% and 70% aa sequence identity with human IL-28B and IL-29, respectively. IL-28A promotes the Th1 polarization of dendritic cells in the airway and inhibits Th2 and Th17 mediated inflammation. IL-28A additionally exhibits anti-tumor activity, in part by enhancing IL-12 dependent anti-tumor CTL responses in vivo. In contrast, it is up-regulated in invasive bladder cancer where it promotes tumor cell migration.

物种/宿主: HEK293

分子量: 20.6 KDa

分子特征: Not available

纯化: Greater than 95% as determined by reducing SDS-PAGE.

Formulation & Reconstitution: Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% - 8% trehalose is added as protectants before lyophilization.

储存和运输: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

Figure 1. Greater than 95% as determined by reducing SDS-PAGE.
