

## HUMAN LILRA2 PROTEIN, HIS TAG

货号: 11982

产品全名: 人 LILRA2 蛋白

规格: 10/50/100 µg

基因符号 ILT1;LIR7;CD85H;LIR-7

目标蛋白: LILRA2

**UNIPROT ID:** Q8N149

**描述:** Recombinant Human LILRA2 Protein with C-terminal 6xHis tag

**背景:** This gene encodes a member of a family of immunoreceptors that are expressed predominantly on monocytes and B cells, and at lower levels on dendritic cells and natural killer cells. The encoded protein is an activating receptor that inhibits dendritic cell differentiation and antigen presentation and suppresses innate immune response. Alternatively spliced transcript variants encoding different isoforms have been found. This gene is located in a cluster of related genes on chromosome 19 and there is a pseudogene for this gene on chromosome 3. [provided by RefSeq, Mar 2014]

**物种/宿主:** HEK293

**分子量:** The protein has a predicted molecular mass of 47.8 kDa after removal of the signal peptide. The apparent molecular mass of LILRA2-His is approximately 55-100 kDa due to glycosylation.

**分子特征:** LILRA2(Gly24-Asn449) 6×His tag

**纯化:** The purity of the protein is greater than 85% as determined by SDS-PAGE and Coomassie blue staining.

**Formulation & Reconstitution:** Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% – 8% trehalose is added as protectants before lyophilization.

**储存和运输:** Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
